

Introducing the Triton Predator!

Triton All Terrain Inc. introduces the **PREDATOR**, an all terrain vehicle designed for the industrial market. The **PREDATOR's** innovative 8-wheel drive hydrostatic system provides superior power, responsiveness, ruggedness and maneuverability not offered in any other amphibious vehicle currently on the market. The **PREDATOR** has been built for all season use through snow, mud, bushes, marshland, rivers and lakes. Our engineers have designed the unit with quality, dependability and ease of maintenance in mind. The combination of high power, durability and versatility means that there is now a practical solution for the industrial and heavy duty recreational user alike.

HYDROSTATIC DRIVE SYSTEM.

Conventional atv's are based on custom built, mechanical skid steer transmission systems. To turn, the wheels on one side of the unit are braked while the other side is left to do all the work. The **PREDATOR's** hydraulic hydrostatic system powers both sides of the unit independently...even in reverse directions! To the user this means that you have all of the vehicle's horsepower working to get you out of the toughest situations. Also, the hydrostatic system always assures the operator of a controlled transfer of power from one side to the other resulting in a much smoother ride, increased maneuverability and responsiveness. The use of the hydraulics also eliminates the need for a separate disc braking system which has to be maintained on other amphibious atv's.

COMPONENT SYSTEM.

Conventional atv's are based on custom made components. This often means more time and money spent on repairs. Our engineers have selected the best readily available components for the **PREDATOR** resulting in lower maintenance costs and down time. Our hydraulic components come with a 3 year manufacturer's warranty and both our diesel engines come with a 2 year manufacturer's warranty.

SAFETY AND DURABILITY.

The **PREDATOR's** body is built around a light weight steel frame which surrounds and protects the occupants. The twin frame construction provides rigid support for the body and allows for the convenient attachment of accessories.

The **PREDATOR** is manufactured with only the highest quality components to ensure the durability of your machine.

- **Designed with the Industrial User in Mind**
- **Turbo-Charged Diesel Engine for More Power**
- **Hydrostatic Drive System (hydraulic)**
- **Mid-Mount Engine for Superior Balance and Floatation**
- **Superior Drivability and Handling**
- **Low Maintenance and Down Time**
- **Readily Available Parts**
- **Designed with Quality Components**
 - Kubota Diesel Engine
 - Eaton Hydraulics
 - NTN Bearings
 - Diamond D50 Chains
- **Numerous Accessories**
- **Custom Design Services Available**

Tackle the Terrain!

triton all terrain inc.

Predator Specifications

ENGINE

KUBOTA 1505

Diesel
1.5 L (91.41 cu in)
Naturally Aspirated
4 Cylinder
37.5 hp @ 3000 rpm

KUBOTA V1505-T

Diesel
1.5 L (91.41cu in)
Turbo Charged
4 Cylinder
46.5 hp @ 3000 rpm

DRIVE SYSTEM

- Hydrostatic System
- Eaton Manually Controlled Variable Displacement Piston Pumps
- Eaton Char-Lynn 4000 Series Hydraulic Motors
- Diamond Chain - Double 50

BODY

- Cross-Link Rotomold Lower Tub and Skid Pan
- Vacuum Formed Polyethylene Top

CONTROLS

- Hydrostatic Steering System - Two Control Levers
- Hand Lever Mechanical Parking Brake

WHEELS / TIRES

- Carlisle AT 101 Chevron 24x12.00-12 (Standard)
- Tracks: Kimpex 16.5" (42cm) Wide (optional)

OPERATIONAL

Load Capacity: 1000 lbs (454 kg) on land / 600 lbs (272 kg) on water
Ground Pressure: 1.87 psi (12.9 kPa) [tracks]
Seating Capacity: 6 People
Ground Speed: 22 mi / hr (35 km / hr)
Turning Radius: Zero - capable of turning on the spot

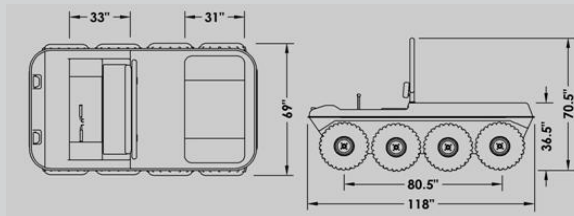

INSTRUMENTS

Standard - Water Temperature Gauge, Hydraulic Oil Temperature Gauge, Fuel Gauge, Hourmeter, Low Oil Pressure Warning Light, Brake Warning Light, Dash Mounted Vernier Throttle, Quartz Halogen Headlights

Optional - Oil Pressure Gauge, Voltmeter, Tachometer

DIMENSIONS

Length: 118 inches (300 cm)
Height: 70.5 inches (179 cm)
Width: Body - 60 inches (152 cm)
Rawhides - 69 inches (175 cm)
Tracks - 75 inches (191 cm)
Ground Clearance: 7.5 inches (19 cm)
Wheelbase: 80.5 inches (204 cm)
Weight: 2100 lbs (952 kg)

ADDITIONAL OPTIONS

- | | |
|-----------------------|-------------------------------------|
| Lift Bar and Backrest | Snow Plow (requires winch) |
| Removable Roof Rack | Cab with Canvas Doors |
| Bilge Pump | 12 V Accessory Plug(s) |
| Tail Lights | Battery Jumpers with Disconnect |
| Engine Block Heater | Cargo Liner (Aluminum Checkerplate) |

We welcome all Dealer Inquiries at Triton All Terrain.
